

# Immigration & Global Mobility

## Overview

---

### Chinese Translation

Archer understands that today's successful businesses rely on immigration and global mobility solutions that cross borders, languages, and customs. For businesses, assembling and mobilizing the right team can make all the difference. Archer provides multi-national, Fortune 100, regional and local businesses with the counsel they need to meet staffing needs, stay on top of changing laws and shifting enforcement priorities, and navigate efficiently the immigration implications of mergers and acquisitions all to keep business moving forward.

We provide a broad spectrum of immigration and global mobility services that help support our clients' success while complying with quickly evolving laws and regulations. There are no one-size-fits-all solutions in immigration, and with our multidisciplinary team approach we are able to provide each of our clients with the personal and individualized attention and advice they require. Through the breadth of Archer's legal services, our immigration attorneys are also able to draw upon the firm's vast network of resources from our business counseling, labor and employment, tax, banking and finance, intellectual property, family law, and civil rights practice groups.

Our experience reflects our in-depth understanding of business needs, both domestic and international, as we are focused on providing the most up-to-date advice and counsel. Our teams mobilize quickly to respond to real-time immigration needs. We provide full-service support to clients seeking lawful temporary visas and permanent immigration for employees and their families. We work with general counsel and human resources departments to develop immigration strategies for both the near and long-terms. We also conduct detailed compliance audits and provide customized training programs that help businesses institute best practices for handling employment eligibility verification, I-9 compliance, and other requirements.
