

# Solar Energy: Hot Today, Cold Tomorrow?

Press Releases

04.05.2011

---

Archer teams with independent energy consultants Green Oak Energy Solutions to present a free breakfast seminar, *Solar Energy: Hot Today, Cold Tomorrow?* on Tuesday, April 5, 2011, from 8 to 10 a.m. at Archer's Haddonfield, N.J., office.

Solar energy has exploded onto the marketplace. The State of New Jersey has mandated retail energy suppliers and providers procure 22.5% of the electricity they sell in New Jersey from renewable energy sources by 2021, among the most aggressive standards in the country. What is driving the solar engine, is solar energy the answer and what is the future of solar energy?
