PLANNING GREMLINS*

We all have to deal with them, the gremlins that plague all planning and zoning boards of adjustment: Portable On Demand Storage facilities (PODs), digital display systems, or Donation Drop Boxes. The panel of experts will discuss how to deal with these unique land uses through zoning and how to protect your municipality.

The highlight of the League's activities each year is the Annual Conference, held in November at the Atlantic City Convention Center. The Conference is an invaluable learning experience which yields benefits throughout the year. Delegates have the opportunity to learn and ask questions at more than 100 panels, clinics, workshops, and other sessions conducted by the League and the **21 associations** of technical and professional employees allied with it. Commercial, government and association exhibits display the latest products and services for municipal government. Typically, more than 17,000 delegates, participants and guests attended, and for years this has been the largest municipal gathering in the country.
