Register today for this informative annual program to hear some of New Jersey's leading authorities provide insight into the latest developments this year in their respective fields – from fiduciary litigation and labor & employment to a health care update, civil trial concerns, including a valuable review of the evolving world of privacy issues for lawyers and ethical issues involving client conflicts. This year's program features a special segment presented by New Jersey Automated Trial Court Services on the continued roll out of eCourts, the electronic filing system in New Jersey State Court. Benefit from the experience and expertise of this panel, and quickly translate the knowledge you gain into effective strategies to handle a variety of cases. You'll take home a comprehensive seminar handbook that can serve as a useful resource in your practice.
