

Data Privacy and Cybersecurity Services

The following is a brief overview of Archer's Data Privacy and Cybersecurity Services. To learn more about any of the services listed here, please contact the designated team member below or visit [Data Privacy and Cybersecurity Services](http://www.archerlaw.com) at www.archerlaw.com.

Data Security Counseling and Data Security Audits. Our group counsels clients regarding the application of state, federal and international data protection and privacy laws to every type of business, including industry-specific laws and regulations such as the Payment Card Industry Data Security Standard (PCI DSS), the Gramm-Leach-Bliley Act, HIPAA, the Electronic Communications Privacy Act, the Fair Credit Reporting Act, the Federal Trade Commission Act, and Sarbanes-Oxley, among others.

Primary Contact: [Robert T. Egan, 856.354.3079](#)

HIPAA Counseling. We assist businesses of all types in meeting their obligations to safeguard health information and meet HIPAA requirements, including health care providers, commercial health plans, billing companies and self-insured employer health plans and their business associates.

Primary Contact: [Lisa S. Albright, 609.580.3710](#)

Data Breach Response. Our attorneys help companies design and execute swift and effective response plans to meet their legal and practical obligations when data breaches occur.

Primary Contact: [Robert T. Egan, 856.354.3079](#)

Data Breach Litigation. We litigate claims by and against owners and holders of protected private information, including credit card companies, financial institutions, financial services companies, retailers, energy companies, government agencies, healthcare providers, manufacturers, and vendors in matters involving alleged failures to meet applicable legal and contractual data security standards.

Primary Contact: [Robert T. Egan, 856.354.3079](#)

Government Investigations. We help clients determine and meet their reporting obligations to government authorities, as well as respond to government investigations resulting from a cyber event occurrence.

Primary Contact: [Robert T. Egan, 856.354.3079](#)

Labor & Employment Counseling. We provide labor and employment counseling to assist clients in developing and implementing privacy and information security policies that reflect the needs of their business. We review and write cyber-related employee agreements and policies.

Primary Contact: [David A. Rapuano, 856.616.2603](#)

Insurance Coverage, Counseling and Litigation. Our group advises clients when purchasing coverage to ensure that a policy matches a business's specific needs, and pursue insurance coverage options when cyber events occur.

Primary Contact: [Trevor J. Cooney, 856.616.2681](#)

Mergers & Acquisitions, Contract Counseling and Other Business Transactions. We counsel clients on data security and risk issues related to business transactions and commercial agreements of all kinds. We assist clients in negotiating and drafting contracts with cybersecurity requirements, including vendor contracts involving shared information and system access.

Primary Contact: [Mark J. Sever, Jr., 856.354.3045](#)

Data Privacy and Cybersecurity Team Contacts

Robert T. Egan handles a variety of business-related cases in the computer and technology sectors, as well as cases from all business sectors involving information governance and protection. Bob devotes his cybersecurity practice primarily to data security counseling and audits, data breach response and litigation, and government investigations. He also advises firm colleagues on discovery matters in litigations involving demands for and the production of protected and confidential information.

Mark J. Sever, Jr. specializes in the practice of corporate law with an emphasis on intellectual property). A veteran of many technology-related business counseling matters, Mark assists clients in addressing cybersecurity and privacy issues involving mergers and acquisitions, contract counseling and drafting, software and website development and other business transactions, as well as with data security counseling and audits.

David A. Rapuano concentrates his practice in representing management in all areas of labor and employment law. He regularly counsels clients in connection with employment policies and practices relating to workplace privacy and data security issues.

Gregory J. Winsky is an electrical engineer, inventor and patent attorney who focuses his practice in a number of intellectual property areas. With over 20 years' experience as general counsel for a multinational consumer electronics company, Greg focuses his cybersecurity practice on contract counseling and drafting, including software licensing and development, and other business transactions.

Lisa Stewart Albright is a member of the firm's Business Counseling Department and Health Care Group. She advises clients on the full panoply of health care privacy issues, with an emphasis on HIPAA matters, health care related data breach responses and government investigations.

Trevor J. Cooney regularly handles matters involving insurance counseling and coverage litigation. Trevor advises clients on a wide range of issues in the ever-evolving field of cyber insurance, helping them to procure coverage consistent with their business risks and budgets, counseling and representing them on coverage issues and disputes following cyber events or data breaches.

Daniel J. DeFiglio supports many aspects of the services provided by the Data Privacy and Cybersecurity Group by monitoring legal developments and assisting in discrete cyber and privacy matters. Dan is experienced in data breach responses and related litigation.

Kate A. Sherlock focuses on intellectual property transactions and litigation. She works with clients to perform in-depth cybersecurity assessments, including General Data Protection Regulation (GDPR) compliance. She also reviews third-party vendor contracts and service level agreements, and drafts internal and outward facing policies and procedures governing cybersecurity, such as privacy policies.
